

MIQUEL GÓMEZ CORRAL

Student of Computer Engineering, UPV

in my degree, I am studying computer science: *Optimization, machine learning, etc.* My computing skills are of high quality, and I can cope with different languages and working environments without any problems. Throughout my career, I have excelled in my studies, and I have received recognition for this.

On my own, I have developed projects with what I have learned in my studies, as well as expanding my skills in image editing, or working with two IT companies as an intern.

Currently, I am looking forward to integrate myself as a professional in the fields of AI and Machine Learning, with objective of learning and improving the world as a computer scientist.

EXPERIENCE

Valencia, Spain

Jun 2024 – Sep 2024

University internship 2: *Vidext*

At **Vidext**, I learnt how to develop **Web applications** using **React & Next.js**. With this, I created the company's landing page and an application for internal use of the employees.
